PROFILE

Computer Science Engineering student passionate about building software that solves real-world problems. I have hands-on experience in full-stack development, backend APIs, and AI-based applications through academic and hackathon projects, with a focus on writing clean, scalable code and delivering practical solutions. I enjoy collaborating with teams and continuously learning modern technologies.

SKILLS

Programming Languages: C, Python, Java.

Web Development: MERN, HTML, CSS, JavaScript, TailwindCSS, Bootstrap, GSAP.

Back-End & APIs: Python (FastAPI), RESTful APIs, Postman.

Design & Productivity Tools: Figma, Canva, MS Office Suite (Word, PowerPoint, Excel), QGIS, Unity Engine.

Cloud & Database Management: AWS, PostgreSQL, MySQL, MongoDB, Firebase, Supabase, Convex, Clerk.

Technical Competencies: Data Structures & Algorithms, OOP, Data Analysis, Version Control, Debugging, Software Development Lifecycle (SDLC), CI/CD.

CERTIFICATIONS

Nation SkillUp Workshop - GeeksforGeeks Hyderabad ([Verify](#))

NPTEL - Programming, Data Structures And Algorithms Using Python ([Verify](#))

Deloitte Australia - Data Analytics Job Simulation ([Verify](#))

HackerRank - CSS ([Verify](#))

LetsUpgrade - HTML & CSS BOOTCAMP ([Verify](#))

LetsUpgrade - MS-Excel BOOTCAMP ([Verify](#))

HackerRank - Python (Basic) ([Verify](#))

Skill Course - 30 Days SQL Micro course ([Verify](#))

PROJECTS

STATXTRACT - Automated Survey Data Ingestion & Query Platform

July, 2025 - Present (Ongoing)

(Ministry of Statistics & Programme Implementation, AICTE & Ministry of Education, Govt of India)

- **Problem Addressed:** Built a production-grade API gateway to automate ingestion and querying of government survey datasets (PLFS, HCES, ASUSE) from complex formats with secure REST APIs, JWT authentication, dynamic schema management, and PostgreSQL integration.
- **Technologies Used:** Python, FastAPI, PostgreSQL, SQLAlchemy, Pandas, JWT, DDI XML, Nesstar Explorer (automated), PowerShell/AutoIt, Jinja2, REST APIs, AWS.

DRIFTSEAL - ML Pipeline Security Framework

April, 2026

(3rd Year BTECH Industry Oriented Mini Project)

- **Problem Addressed:** Developed a production-grade ML security framework that detects data poisoning attacks through behavioral drift analysis using ensemble anomaly detection and automated remediation.
- **Technologies & Platforms Used:** Python, scikit-learn, TensorFlow, Pandas, NumPy, React, FastAPI, Figma.
- [GITHUB REPOSITORY](#)

HAEMOLINK - Intelligent Blood Donation & Delivery Ecosystem ([LINK](#))

December, 2025 - January, 2026

- **Problem Addressed:** Developed a real-time blood donation platform with intelligent donor matching, multi-role access, JWT authentication, and live workflows connecting patients, donors, hospitals, and riders.
- **Technologies & Platforms Used:** React, TypeScript, Supabase, REST APIs, Figma, HTML5 QR Scanner, Vercel.
- [GITHUB REPOSITORY](#)

AI-based Illegal Construction Detection System

October,2025

Hackathon Project - **Winner (Industry 4.0 Domain)** - VJ HACKATHON 2025, VNR VJIET

- **Problem Addressed:** Illegal and unregulated construction activities are increasing in urban areas due to manual monitoring limitations and lack of real-time enforcement, leading to environmental damage and urban chaos.
- **Tools & Technologies:** Sentinel-2 Satellite Imagery , Google Earth Engine, QGIS, Python, Deep Learning & FastAPI.

PEDIASCAPE - Comprehensive E-Learning Platform ([LINK](#))

March, 2025 - May, 2025

(2nd Year BTECH RealTime Project)

- **Problem Addressed:** Educational resources, career guidance, project ideas, and study materials are fragmented across multiple platforms, making it difficult for students to learn systematically and choose the right career path.
- **Built:** An interactive e-learning platform that centralizes learning resources, career roadmaps, AI-powered assistance, project guides, and study materials in a single platform.
- **Tools & Technologies:** HTML, CSS, JavaScript, GitHub, Firebase, Figma, D3.js, Gemini API, Hugging Face API.
- [GITHUB REPOSITORY](#)

GRAMSCAPE - Gamification for Rural Planning using Drone, land Survey maps & GIS data

December,2024

SMART INDIA HACKATHON 2024 - GRAND FINALIST SIH2024

- **Problem Addressed:** Designed GIS-based village maps and integrated them into Unity for realistic infrastructure planning using QGIS, Autodesk InfraWorks, Unity, and survey data.
- **Tools & Technologies:** QGIS, Autodesk InfraWorks, Unity Engine, Figma, Git.

EDUCATION

- Bharat Institute of Engineering & Technology

Hyderabad, India

Bachelor of Technology in Computer Science Engineering - 4th Year, CGPA: 8.43

2023 - 2027

- IClass CDR Junior College

Hyderabad, India

Intermediate in Maths Physics Chemistry, Percentage - 84.8%

2021 - 2023

- St. Mark's Progressive High School

Hyderabad, India

6th - 10th Standard, Grade: 9.0

2016 - 2021

Languages Proficiency:

• English • Hindi • Telugu • Odia

ACHIEVEMENTS

- **Winner - STATATHON 2025-26.**
- **Grand Finalist in Smart India Hackathon 2024 TOP-5.**
- **Winner - VNR VJIET Hackathon 2025.**
- **Grand-Finalist- CMR HACKFEST.**
- **BIET Intra Collegiate Hackathon 2025 1st Prize Winner.**
- **SIH 2025 Intra Collegiate Hackathon Coordinator.**
- **Participated in Innovation Conclave 2025, BITS Pilani Hyderabad Campus.**
- **Organised SAMOHANA 2025- Group Discussion Event at BIET.**
- **LetsUpgrade Student Ambassador.**
